WHY THEKE IS DELAY AT PEN

The failure of the democrats in convention at Per II to 1 to find the work in one day
is sugge the of currents that make no sign
on the surface. The non-induces to be made
are few in number in I there are no contests.
If therefore there had not been other cause of delay the convention vould have gettlen through its whole business in four hours

this delay to framing a platform that meh be writen in thirty minutes? The trouble undoubledly is with the tariff question. The growers of wood prote t against the scheme of free wood and t ved widens a scheme which puts the burden of the so-cilled tariff reform on the producer and leaves the manusate training facturer more posit than belong which ents the producer in the value of his product but gives him no relief in cheaper clothing. There is further objection to this scheme because t will out from 20 to 50 per cent from the value or overy flock of sheep in the cour try Tins must follow, since the vilue of a sheep is based upon its capacity to carn money for its owner. These objections are founded in important and widespread interests, and supported by every principle of equity. It is not surprising that they dr-

signed persistently

Of course the end will be the triumph of the managers over the protesting producer. The platform will be all that the administration wants it to be The interests of the pro-ducers will be forced to the wall by the power of the politician, working to sustain the national administration. It is necessary for Mr Cleveland at this time that the democratis of Oregon a wool producing state, should support his policy of free wool and taxed woolens and that the report should go forth to this effect and to this political necessity the interest of the producers must be sacri-

ficed

There will be an effort to calm the discontent which this outrage will make by all manner of 'concessions'. The wool pro-ducing districts will be given whatever the want in the way of nominations and in mis-cellaneous resolutions. To please Eastern Oregon there will be warm endorsement of the scheme for Columbia river improvement But all this will not avail Petty honors empty re-olyes and long-delayed recognition of local rights, will not make up for directing deep migry. The wool grovers cannot be flattered into forgetfulness of the injustice involved in a system which abandons nool producers to the competition of the world but protects the manufacturers of woolens.

In h has proved himself an adroit agent of the administration Coming as an uninvited guest (his vi it in liself an imperio nalivited guest (his visit in their in imperti-mence) for a purpose hostile to Oregon inter-ests, he has contrived to make himself the hero of the occusion. The fact is not credit-able to the part of the democratic party

Concerning the notorious Reawood turble frauds in Cal forms the h w York Ting does not exagger to a partice when it says that the losse of the government which have been out of by the Redwood fruids and the operation of the surveyors ring cv geed those which were crused by the jobs of the star route conspirators. The sums paid for surveys that were not made are small in comparison with the value of the land and tumber which has been from inlently acquired fue timber taken in only one of il e Bedwood of calls estimated to have been worth \$6,000,000 Although the facts were ago strices not appear that any one of the guilty I con his been tried or that chy part of the projects taken I is been recordered. And yet the public went hald over the tar route const racy while it yiews this wast timeer steal with apathetic indifference

Attitude of the Rock Island Towards the Burlington.

TWO OF THE SIDE STRIKES ENDED

The Santa Pe Men Gain their Point and Return The Strikers Beaten by the Knights of Labor

#### THE ROCK ISLAND'S ATTITUDE its Charges Against the Burlington Benied

Atta Charges Against the Burlington Denied by General Manager Stons

CHICAGO April 3.—When the Burlington railway skeed Judge Gresham for an order to compel the Rock Island to handle 'Q freight, the Rock Island answered by charging that the present surface was simply a part of the Burlington programme to ferree other lines into joining a railway Trutt, which the Burlington was said to desire H. B Stone, general manager of the Chicago, Burlington a Quincy, makes answer to these charges in an aridarit which was filed this atternoon. Rock Hand, which it pronounces for the charges of the Rock Island, which it pronounces for the Rock Hand, which it pronounces that the charges of the Rock Island that the strike was allowed in order to correct the Burlington The trust story is pronounced utterly false.

Stone denounces as false and reckless' the tharges of the Bock Island that the strike was allowed in order to correct the Burlington competitors into acquieszence into a railway trust, and calls attention to the "inexcuspic taility of the Rock Island charge that complainant has in bad faith been crowding traffic exchange on defend ant with the purpose of disabiling it in the open sion of the Rock Island road

Affidarits are filed, with bills of lading accompanying several blockaded shipments, to show that they were all shipments made by private consignors and that complainant had nothing to do with the origin or the roming thereof.

In conclusion Mr Stone declares that, contrary to the Bock Island as assertion made in its naswer that it was in a position to resume former relations with complainant, in notice has been given

to the Rock Island's assertion made in its answer that it was in a position to resume former relations with complainant, no notice has been given complainant that the engineers and firmen of defondant had given up control of its traffic department or granted permission to defendant the conduct its business as a public carrier according to law, or that the defendant's policy of absolute non informers as declared in orders and letters of its agent, was in any respect altered.

In Constant Pain Lour Weeks and How it
Was Gured

Mr. Editor. For some time I have been
sorely afflicted with Rheumatism in my
limb. After un accessful trials for cure I
came to Dr. Durin and with his medicinal
said electrical treatment I am restored. For
fiur weeks I could not skep only at short
intervals. Can be referred to on Fourth
street between Hooker and Porter streets,
South Fordland.
